

# GREEN IS WORKING

IT'S TIME DAVID CAMERON TOOK IT SERIOUSLY

**Saturday 24<sup>th</sup> November Huddersfield Town Hall, Ramsden Street.**

Join us as we say that the government's Energy Bill must build the green economy.

### **Did you know?**

- ✓ Last year 1/3 of UK economic growth came from green businesses.
- ✓ The renewable electricity industry already employs 110, 000 people with the potential to employ tens of thousands more people
- ✓ Developing the green economy would reduce the UK's balance of payments by reducing our imports of fossil fuels
- ✓ Green energy would help regional economies grow across the UK.

We're calling on the government to:

**Decarbonise Electricity by 2030**

**Keep Aviation and Shipping in the Climate Act**

11.45 am Photo stunt (Please wear something green)

12.00-12.30pm Lobby of Jason McCartney, MP for the Colne Valley. Please note: This meeting is by prior arrangement so if you would like to attend please email [kirkleesccc@hotmail.co.uk](mailto:kirkleesccc@hotmail.co.uk) by Wednesday 21<sup>st</sup> November.
