

Green & Brown
Environmental Ltd.

Getting (back) into growing your own food

Venue: Hangingstone Road, Berry Brow

Join in this series of informal growing workshops, designed to give you confidence to grow your own fruit and veg, with your available time and energy. Tuesday evenings from 6.30pm to 8.30pm:

- 5th July Growing mediums and composting
- 12th July Growing winter salads and undercover growing
- 19th July Pests, diseases and organic methods of prevention
- 26th July Perennial fruit, herbs and vegetables

Combining theory with practical hands-on growing, we will look at the best use of growing space, soil management and tool use in every session. We encourage participants to ask questions and let us know your interests.

Gardening clothes, gloves and boots required (there is some steep and uneven ground). Notebook useful. ☕ Tea provided - please bring a mug!
